MURRAY

Green Waste Collection

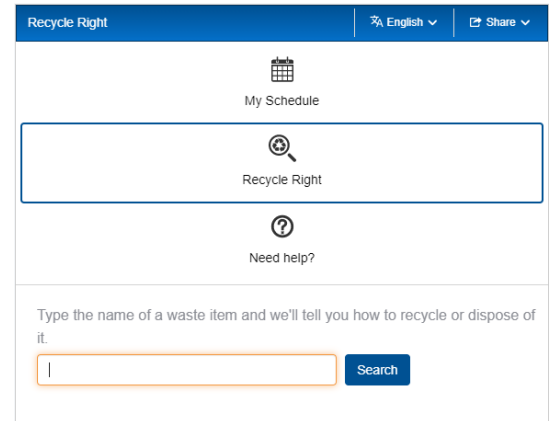

The last pickup date for Green Waste Collection in 2020 for Murray will be Tuesday, December 8. We remind residents to not place the green cans out on the curb after that date. They will not be picked up nor emptied. Collections for green waste, in Murray, will resume Tuesday, March 16, 2021.

Tools for Successful Recycling

Over the last year, WFWRD has taken steps to make our recycling education more accessible. For our residents, we have two exciting ways and one new tool to access education.

The new tool is called Recycle Right, which allows residents to look up any item and find out how to properly dispose of it. You can lookup items like plastic bottles, baking trays, air conditioners, and dog food bags. One of the great features of this tool is if you look up an item and don't find it, you can "suggest it". This means our team will look into it, find how to dispose of it, and add it to our Recycle Right tool.

To access this tool on our website, go to: <https://wasatchfrontwaste.org/recycling>. To download the app, visit Google Play or the Apple Store, and search for "WFWRD"

Area Cleanup Evaluation Results

Due primarily to staffing issues, which were compounded by the COVID-19 Pandemic, WFWRD delayed the start and operated a modified version of the Area Cleanup Program (ACUP) in 2020. Residents were given the option to reserve a container and have it parked in their driveways. It was initially met with high opposition and complaints, but we received many compliments from those who participated, after receiving the service.

WFWRD conducted a survey for this service and received 2,735 survey responses. The District-wide overall satisfaction was 83.1%. There were 93 surveys completed by Murray residents with a 88.0% satisfaction rate for this year's program. Many of the concerns expressed by residents related to scheduling a container. WFWRD is working to improve the scheduling system for the 2021 season.

Other information: There were a total of 9,548 containers delivered to district residents this year with 411 to Murray residents.

Download and view the entire survey report on our website, at: <https://wasatchfrontwaste.org/area-clean-up>.
