MURRAY

Driver of the Year Award

We are proud to announce that our 13-year veteran, Ryan Jones, has won the prestigious 2021 Driver of the Year award from the National Waste and Recycling Association (NWRA) for the Public Sector. This is a national award, and Ryan is the fifth Driver of the Year recipient from WFWRD. His example represents our organization’s commitment to safe and effective service for our customers.

WFWRD Services

WFWRD provides services to the community that no other waste/recycling organization provides. In addition to our standard curbside waste and recycling collection, we offer subscription curbside green waste. We also have bulk waste and green waste trailers available for rent on a first come/first served basis, and landfill vouchers for residential truck or trailer loads, available at your city and community offices. As residents within the WFWRD district, you have access to these and all

of our other services. Visit our website to find out more. www.wasatchfrontwaste.org.

Plastic Bags

We are still seeing lots of plastic bags in the curbside recycle cans. We ask all residents to keep plastic bags and all thin film plastic materials out of the blue recycle cans. These bags create a lot of problems at the recycling processing facility. Most grocery stores, and other retail outlets, have collection bins for plastic bags. Using these receptacles ensures that plastic bags can be properly recycled and out of our landfills.
