

General Information

Murray City requires that a valid business license be held by anyone conducting business within Murray City. "Business" means and includes every craft, trade, occupation, profession or activity pursued for gain or profit excluding, however, services rendered by an employee to an employer.

A business license fee shall not be imposed on any person engaged in business solely for religious, charitable, or other types of strictly nonprofit purpose which is tax exempt under the laws of the United States and the state of Utah, or for any business specifically exempted from municipal taxation and fees by the laws of the United States or the state of Utah.

Any person exempt from paying the licensing fees shall still comply with all other requirements. Upon receipt of an application, the city license administrator shall process the application as required and upon determining legal compliance with all requirements, issue, without charge, a license stating that the applicant is an exempt business, charity, or other exempt entity. The applicant shall post such license in a conspicuous place.

A business address is the physical location where such business is to be conducted. A PO Box or mailbox service address are not valid business addresses and cannot be accepted. Each business location will need a separate license. Temporary businesses and seasonal businesses are also required to obtain licenses and permits.

Licenses are not transferable from address to address, or from owner to owner. Any change of location, ownership, or corporate information requires a new application to be submitted. Minor changes such as mailing address may be submitted without application.

A person conducting business in the city without first obtaining a business license or a person operating a business that has been closed for nonrenewal shall be assessed a one hundred percent (100%) penalty on past due fees including any regulatory fees or 100% of the amount of what the licensing and regulatory fees would have been if the business is exempt from such fees. (City Code 5.04.260: Penalty fees for failure to obtain a license.)

Re-application notices are mailed out on the first of the month in which the license expires. In order to avoid penalty fees, the re-application form and payment must be received in our office prior to the expiration date. We do not accept post marks as timely receipts and cannot be responsible for lost or misdirected mail. Responsibility of renewal is total responsibility of the licensee. Failure to receive notices does not excuse this responsibility.

Murray City requires that a written notice be submitted if a business has moved out of the City or is no longer conducting business. Please note that the base license fee is non-refundable.

A property owner authorization form completed by the property owner is required to conduct business if the business owner is renting the home/apartment. A copy of this form is available on our City website and must be included with the application at the time it is submitted.

Application Information

Prior to submitting an application for a business license, please contact the City Planning and Zoning Division (801-270-2420) to verify that your type of business is allowed. All State and local requirements must be met before submitting your application. Please include verification of these requirements with your application.

The average business license processing time varies due to circumstances where a conditional use, Health Department approval, etc. is needed. Murray City does not offer interim licensing. Please be aware that you must have your business license issued prior to opening/operating. If you are still under construction, or your projected opening date is more than 3 weeks out, please do not turn in your application any sooner than 3 weeks prior to opening.

Fees for licenses vary according to number of employees, vehicles and classifications. Please refer to the fee schedule page included with your application for details. Fees are due at the time of submitting an application. The base license fee is non-refundable should a license not be approved. Fees are also required for change of address and are not prorated.

Once an application is submitted, approvals and/or inspections are required by Murray City Fire Department, Murray City Zoning Department and Murray City Code Enforcement. Businesses may also need to complete inspections by the Salt Lake County Health Department or other applicable agencies. When all applicable departments have approved the application, a business license will be issued.

HOME OCCUPATION LICENSING

A home occupation license is required to conduct any permitted business in a residential zone. Home occupations are accessory uses and are subject to specific regulations. Complete regulations may be found in the Murray City Code.

17.24.050 Prohibited Uses:

The following uses by the nature of the investment or operation have a pronounced tendency, once started, to rapidly increase beyond limits permitted for home occupations and thereby impair the use and value of a residentially zoned area for residence purposes. Therefore, the uses specified below shall not be permitted as home occupations regardless of their conformance with the other standards: On site carpentry work including cabinet making or other similar uses which generate noise, dust or fumes; dental offices; electronics repair; major appliance repair (washers, dryers, refrigerators, etc.); medical offices; painting of vehicles; permanent yard sales; photo developing; photo studios; private schools; trailer or boat repair; vehicle sales; limousine or taxi service; sexually oriented businesses; tattooing. The listing of specific prohibited businesses in this section shall not be construed to allow or permit a home occupation business which otherwise violates this chapter. (Ord. 07-30 § 2)

17.24.030 License required:

A home occupation license shall be required to conduct a permitted business in a residence located in residential zones. Home occupations are accessory uses and are subject to the following regulations:

A. The home occupation business use must be conducted entirely within the main dwelling, except that the outside yard areas may be used for group instruction, residential day care facilities and group education uses.

B. The home occupation business may be conducted only by persons who are residents of the dwelling unit, except that up to one person not residing in the residence may be engaged, volunteer or be employed by the licensee. The owner of the business must reside in the residence. The planning commission may approve more than one nonresident employee if it finds that the additional employee will not be employed as a driver of a work vehicle kept at the residence, and also finds that the employee's presence in the premises will not otherwise violate the intent of this chapter. Only one nonresident employee, or such additional nonresident employees as approved by the planning commission through approval of a major home occupation, is allowed per residence, regardless of the number of home occupation licenses held by persons residing in the residence.

C. The business use must be clearly incidental and secondary to the residential use of the dwelling and may not change the residential character of the dwelling. No more than twenty five percent (25%) of the total main or upper floor area, or, in the alternative, no more than fifty percent (50%) of the total floor area of a basement, may be used to conduct a home occupation. Interior alterations to accommodate a home occupation are prohibited if the kitchen, the dining area, all bathrooms, the living room, or a majority of the bedrooms are eliminated. Signs related to the home occupation are prohibited unless otherwise provided in this title. Exterior alterations are prohibited if the alterations change the residential appearance of the dwelling.

D. Commodities may be produced on the premises in accordance with law. Sale of commodities from shelves or similar display on the premises is not allowed.

E. Home occupation businesses shall not involve the use of any accessory building or yard space for storage, sale, rental or display of supplies or inventory used in the home occupation.

F. Group education, group instruction, child care, and instruction of children, other than those residing in the dwelling, are allowed as a home occupation accessory use or as a conditional use only to the extent as allowed in this title.

G. More than one home occupation business license per dwelling unit is allowed; provided, however, that the cumulative effect of such businesses shall not violate the provisions and the intent of this chapter. By way of illustration and not limitation, the conduct of multiple home occupations may not violate the prohibitions against excessive traffic, and the limit on the number of nonresident employees and motor vehicles allowed at a residence. Any or all of the home occupation licenses issued at a residence are subject to suspension or revocation if the cumulative effect of the conduct of those businesses violates this chapter.

H. Home occupation licensees shall comply with all state and local laws, including fire, building, and similar life safety and health codes.

I. The premises of a home occupation may be inspected during reasonable business hours to determine compliance with the provisions of this title.

J. A home occupation business license shall be valid for twelve (12) months after it is issued and may be renewed annually unless the license, or the privilege of renewing that license, has been revoked or suspended due to violations of this title or other laws applicable to the home occupation license. Home occupation business licenses, and major home occupation permits, are personal to the applicant, nontransferable and do not run with the land.

K. One business vehicle used by the licensee in connection with the home occupation may be parked at the premises, subject to the restrictions in this chapter. Other motor vehicles and equipment, and trailers used to transport the same, which are used in connection with the home occupation may not be stored or parked on the premises of the licensee or in any street adjacent to the licensed premises. Under no circumstances may motor vehicles having a gross vehicle weight rating of more than twelve thousand (12,000) pounds and which are used in connection with the home occupation be stored or parked on the premises of a home occupation or any street adjacent to those premises. By way of illustration and not limitation, this subsection is intended to prohibit the storage or parking of business fleet vehicles, such as limousines; service or work vehicles (snowplow/landscape maintenance trucks) and similar vehicles; delivery vehicles; and contractor's equipment and trailers used to transport the same. As provided in subsection B of this section, a nonresident employee may not be allowed to drive any business vehicle parked at the premises as permitted by this subsection as part of that employee's regular work assignment.

L. The traffic generated by a home occupation may not exceed that which would normally be expected in a residential neighborhood, and any need for parking generated by the conduct of such home occupation shall be met off the street according to city regulations. The home occupation shall not involve the use of commercial vehicles having a gross vehicle weight rating of more than twelve thousand (12,000) pounds for delivery of materials to or from the premises.

M. Except as otherwise provided in this title, the community development division and/or code enforcement is authorized to approve home occupation applications in accordance with this title.

N. The home occupation may not be associated with noise, noxious odors, fumes, glare, or other nuisances that may be discernible beyond the premises.

O. The storage or use of flammable, explosive, or other dangerous materials is prohibited.

P. Uses where a client or customer comes to the home shall be subject to the standards for a major home occupation permit.

17.24.040 Major Home Occupations:

- A. The following home occupations, which either require a client to come to the home or which may result in neighborhood impacts if not properly managed, may be authorized as an accessory use through a major home occupation permit pursuant to the standards specified in this section: Barbers, cosmetologists, manicurists; consultant services; counseling; home instruction including musical instruments, voice, dance, acting and educational subjects, swimming, tennis and other athletic instruction; contractor, “handyperson”, and landscape or yard maintenance contractor; subject to the special conditions that no construction materials or equipment will be stored on the premises; other similar personal or professional services where the client comes to the home.
- B. Uses classified as major home occupations must comply with the standards of Section 17.24.030 above, which shall be considered minimum standards. The Director or Planning Commission may require additional conditions to mitigate impacts of the use on adjacent properties. These conditions may include but are not limited to: limits of hours of operation; limits on numbers of clients per day/hour; provision of adequate off-street parking; other conditions related to mitigating adverse impacts resulting from the use.
- C. Major Home Occupation Permit: Applications for a major home occupation permit shall include all of the information required for a home occupation business license, and the following information:
 1. Names, signatures and addresses of all abutting and adjacent property owners, including property owners across the street(s).
 2. Approval of the property management or property owner shall be required if the business is conducted on a leased property.
 3. Notice to Neighboring Property Owners: Signatures of approval of all abutting and adjacent property owners on a form provided by the Community and Economic Development Division.
 - a. If all of the required signatures cannot be obtained, the applicant may request the application be referred to the planning commission to be considered as a major home occupation.
 - b. If all of the required signatures are obtained, the Director or designee will approve, approve with conditions, or refer the application to the planning commission to be considered as a major home occupation.
 - c. Notification of Decision: Within ten (10) workings days of the Director’s decision, a letter shall be sent notifying the applicant of the decision.
