

Applying for a Concept Review

A concept review must either be a land use that is allowed either as a permitted use or a conditional use within a specific zoning district subject to the restrictions applicable to that zone.

OVERVIEW

A concept review is a very basic “birds eye” review of a development plan for one or more lots on which is shown the proposed conditions of the lot, including, vegetation, wetlands and waterways: landscaping and open space: walkways; means of ingress and egress; circulation; structures and buildings; buffers, and screening devices; and any other information that reasonably may be acquired in order that informed feedback is given by the City.

The concept review process is designed to ensure that any proposed development or land use will generally comply with current city ordinances as well as the goals and objectives stated within the Murray City General Plan.

Submittal Deadline:

Application for a concept review must be submitted to the Murray City Community & Economic Development Division, 4646 South 500 West by 10:00 a.m. on the deadline date. Planning staff will issue a decision approximately 3 weeks later. Incomplete applications may delay processing of the application and subsequent scheduling of public hearings.

- Take Note.** If there is an existing building on the property that is proposed to be demolished or remodeled, and the building is over 50 years old, it may require review by the Historic Preservation Board. Please contact Lori Edmunds at (801) 264-2620 for additional information.
