

## Trans-Jordan Landfill Rate Increase

---

**EACH  
MATTRESS &  
BOX SPRING  
COSTS \$15**

---

Effective July 1, 2018

**Trans-Jordan is almost full**  
We are digging our last waste cell. Once it is full, we can no longer take your trash.

---

**Mattresses don't compact well**  
Even our heaviest machine cannot reduce the size of a mattress.

---

**Box Springs are problematic**  
Springs pop out and damage our equipment resulting in costly repairs.

### What you can do:

**RECYCLE IT** – Spring Back is a local company that will recycle your mattresses and box springs for \$10 each. Check out [www.springbackutah.com](http://www.springbackutah.com) for more information.

**Shop wisely** – Many mattress stores include haul away and recycling with the purchase of a new mattress.

**Reduce your mattress waste** – Follow manufacturer care instructions, and flip your mattress regularly. This will extend the usable life of your mattress.
